Obama Wins Re-Election

Obama’s Win Powered By Organization, If Not Ideas

Bloopers and stumbles made the news this presidential campaign, but Barack Obama’s re-election was powered by plans begun on the ground four years ago. To retain the White House, Obama managed to overcome the handicap of an economy just finding its footing after a devastating recession, and an unemployment rate higher than it had been under any president seeking re-election since Franklin Roosevelt during the Great Depression.
